

Expansion of factory premises and new motorhome parking space

MORELO continues to invest in the future

The luxury motor home manufacturer MORELO has acquired land directly adjacent to its location. The size corresponds with 55.414 m² to about the size of eight football fields. A total of about 3 million euros will be invested in the new area.

On 5,000 m², a modern parking space for 52 motorhomes will be created: with supply and disposal, electricity connections and a stately natural pond with about 900 m³. The rest of the land will be used for upcoming production expansions and as a much needed floor space. Already at the MORELO OPEN 2019 from May 30 to June 2, the new, already paved area can be used by guests with motorhomes, because this year MORELO expects a record number of visitors.

"This is a step in the right direction," says Reinhard Löhner, Managing Director of MORELO. "The personal proximity to our customers and friends has always been very important to us. So much the better if you can soon feel "Welcome Home" on the MORELO pitch. "

Just over a year ago, MORELO has begun the construction of a modern service center. The work will be completed in summer and the factory service can be massively expanded. Through these measures, MORELO wants to ensure that the steadily growing number of customers can continue to receive optimal support.
